BACKGROUND

This international technical webinar is part of the series organized by the **FAO eLearning Academy**, **Agreenium** (l'Institut agronomique, vétérinaire et forestier de France) and **UN-ESCAP** (United Nations Economic and Social Commission for Asia and the Pacific). These webinars are an opportunity for all of us to share experiences and lessons learnt, discuss challenges, and propose innovative solutions and models. They aim to provide a holistic and comprehensive view of current trends in thematic areas related to global challenges, by combining development research and innovation perspectives.

The main objective of these technical webinars is to give practitioners the opportunity to interact with international experts, United Nations officers, University professors, researchers and fellow participants, throughout the world. Webinars can be attended as interactive online sessions on Zoom, where sharing perspectives and asking questions to experts is encouraged. These sessions are also recorded and therefore available at any time, through the FAO eLearning Academy: elearning.fao.org.

OBJECTIVES OF THIS SESSION

- Present the work that the Rome-based Agencies (RBA) working group is doing on sustainable food value chains for nutrition;
- Provide a comprehensive overview on the e-learning course on Sustainable Food Value Chains for Nutrition; and
- Introduce a country experience from Mozambique in designing sustainable food value chains using this approach.

SPEAKERS

This technical webinar will be delivered by **Ms Florence Tartanac** (FAO), **Mr James Garrett** (Alliance of Bioversity and CIAT), and moderated by **Ms Cristina Petracchi**, Leader of the FAO eLearning Academy. A case study from Mozambique will be presented by **Mr Custodio Mucavele** (IFAD) and **Carla Honwana** (PROMER).

Florence Tartanac
Senior Officer
Food and Nutrition Division
FAO

James Garrett
Senior Research Fellow
Alliance of Bioversity / CIAT

Cristina Petracchi
Leader of the FAO eLearning
Academy
Partnerships Division
(FAO)

Florence Tartanac works at FAO since 2001 and she is Senior Officer in the Food and Nutrition Division at FAO, Rome. Her areas of expertise are the following: sustainable value chain development and inclusive business models; voluntary standards and geographical indications; institutional procurements; small and medium food enterprises development. Before FAO, she worked 10 years

James Garrett is a Senior Research Fellow at the Alliance of Bioversity and CIAT, a CGIAR Research Center. With a Master's in public policy and a PhD in agricultural economics, he works on policies and programs at the nexus of agriculture, food, and nutrition. He enjoys working at the interface of research and practice. He served as senior economist (nutrition) at the World Bank and led development

Cristina Petracchi heads the FAO eLearning Academy. She manages and coordinates the design, development, delivery and language adaptations of an extensive portfolio e-learning courses and blended learning programmes for the benefit of FAO member countries, and is responsible for the creation of University Masters' and Post Graduate Degree Programmes. She engages actively in

in Guatemala, for the French Cooperation, the Institute of Nutrition for Central America and Panama and UNIDO. As academic background, she is a food engineer and has a PhD in Economical Geography from Paris University.

of the first nutrition strategy at FAO and the nutrition action plan at IFAD. A member of the RBA Working Group on Sustainable Food Value Chains for Nutrition, with Isabel de la Peña, he co-authored the guides for design of nutrition-sensitive value chain projects underpinning this course.

consolidating partnerships across United Nations agencies, academic institutions and universities, regional organizations, CSOs and NGOs, for capacity development initiatives. In addition to a University Degree in Biological Sciences, Ms Petracchi holds a PhD in Nutrition and Food Science, and has several years of experience of capacity development activities, in a number of countries.

COUNTRY CASE STUDY:

Custodio Mucavele
Country Programme Officer
for Mozambique / IFAD

Custodio Mucavele is the IFAD Country Programme Officer for Mozambique since May 2003. Prior to that, he worked for the Mozambique National Extension Service where for more than 15 years he was assigned many different positions, ranging from a village Extension worker to the Deputy Director of Extension. Over the last 17 years in IFAD he accumulated experiences in the areas of Project/Programme Design, Supervision and implementation support, policy dialogue and partnership building. His work with nutrition started in 2012 with CHAPANI, the very first nutrition program in the whole portfolio. Mr Mucavele holds a BAppSc (Rural Management) from the University of Queensland, Australia and a Master Degree in Agricultural Economics from the University of Pretoria, South Africa.

Carla Honwana
National Coordinator /
PROMER

Carla Honwana is the National Coordinator of the Rural Market's Promotion Programme – PROMER since 2009. She accrued several years of experience in school feeding programme, rural development projects and nutrition with various international organizations, including WFP and the European Union. Her work with nutrition started in 2013, when a nutrition education was integrated in PROMER, in the context of the European Union MDG 1-C initiative, to support the Government of Mozambique reaching the Millennium Development goal 1-C. Carla Honwana has a Bsc. Honours in Agronomy from the University Eduardo Mondlane and a joint Master of Philosophy (Mphil) degree in Plant Breeding and Crop Improvement, from the Universities of Birmingham and Reading, in the United Kingdom.
